Professional Summary

Motivated and detail-oriented MERN Stack Developer with hands-on experience building scalable full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in REST API development, role-based authentication, responsive UI design, and modern JavaScript technologies. Passionate about writing clean, maintainable code and delivering user-focused software solutions while continuously expanding technical expertise.

Education

University of Sindh, Jamshoro

Bachelor of Science in Computer Science (BS-CS)

Jun 2022 – Feb 2026

CGPA: 3.5 / 4.0

Experience

A-Net Cyber Solutions

MERN Stack Developer

Jan 2024 – Present

Karachi, Pakistan

- Developed and maintained scalable full-stack web applications using the MERN Stack (MongoDB, Express.js, React.js, and Node.js).
- Built and enhanced the **She Commerce** marketplace platform featuring secure role-based access control for Guest, Buyer, Seller, and Admin users.
- Designed and integrated RESTful APIs to enable efficient communication between frontend and backend services.
- Collaborated with stakeholders to gather business requirements, implement new features, and deliver project milestones on schedule.
- Managed source code using Git and GitHub while following collaborative development workflows and version control best practices.

Fiverr

Freelance MERN Stack Developer

2023 – Present

Remote

- Developed custom full-stack web applications for international clients using the MERN Stack.
- Built responsive React.js Single Page Applications (SPAs) with REST API integration and reusable UI components.
- Maintained clear communication with clients to understand project requirements, provide updates, and ensure timely project delivery.
- Focused on writing clean, maintainable, and scalable code while following modern web development practices.

Projects

She Commerce – Women Artisan Marketplace | React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a full-stack e-commerce marketplace connecting women artisans from Sindh with buyers across Pakistan.
- Implemented secure JWT authentication with role-based access control for Guest, Buyer, Seller, and Admin users.
- Built product management, shopping cart, order management, and admin dashboard modules.
- Integrated RESTful APIs and MongoDB to provide secure and efficient data management.

AI-Powered Tender Management System | React.js, Vite, Tailwind CSS, Node.js, REST APIs

- Developed an AI-assisted tender management system with document parsing and submission workflows.
- Designed a responsive and user-friendly interface with real-time tender status tracking.
- Integrated backend APIs for user authentication and complete tender lifecycle management.

Employee Management System | Node.js, Express.js, MySQL, HTML5, CSS3

- Built a full-stack Employee Management System using Node.js, Express.js, and MySQL.

- Implemented CRUD operations through RESTful APIs for managing employee records efficiently.
- Designed a responsive web interface for adding, updating, deleting, and viewing employee information.

Restaurant Menu Web App | *React.js, JavaScript, CSS3*

- Developed a responsive restaurant menu application with dynamic category-based filtering.
- Built reusable React components and managed application state using React Hooks.
- Optimized user experience with clean UI design and responsive layouts across devices.

Personal Portfolio Website | *HTML5, CSS3, JavaScript, Netlify*

- Designed and deployed a responsive personal portfolio showcasing projects, skills, and technical expertise.
- Implemented multiple themes, custom SVG skill icons, and performance optimizations for improved user experience.
- Hosted the portfolio on Netlify with optimized loading speed and cross-browser compatibility.

Technical Skills

Frontend: React.js, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+)

Backend: Node.js, Express.js, REST API Development

Database: MongoDB, Mongoose, MySQL

Programming Languages: JavaScript (ES6+), Python (Basics)

Tools & Technologies: Git, GitHub, Postman, VS Code

Concepts: JWT Authentication, MVC Architecture, REST APIs, Responsive Web Design

Certifications

MERN Stack Development

Professional Certification
